# Quick Start Guide

stork vitals
## What's in the box?

Sensor

Sensor Magnetic Charge Cable and Cable Clip

Medium Boot (Size 4 Strap Pre-Attached)

2 X 5W Charge Adapters

Small Boot (Size 3 Strap Pre-Attached)
Size 1 and Size 2 Straps

Hub

Hub Power Cable

Not intended for use as a medical device or to replace a medical device. Do not use it to diagnose, cure, treat, alleviate, or prevent any disease or health condition.

## Charge the sensor

Plug the Sensor Magnetic Charge Cable into the 5W power adapter.

Connect the magnetic end of the cable to the sensor. Fully charge the sensor before use.
5W
Peel and stick the cable clip to secure the sensor charge cable.

The sensor is fully charged when the LED turns white.

## Pair the sensor to the app

Download the Stork app and follow instructions.

Stork Sensor

Stork Camera

Stork Hub

## Add straps to sensor and boot

Size 1 strap (for newborn foot)

Slide on

Masimo stork

Remove sizes 1 and 2 from paper sleeve.

Slide on

SIZE 1 — In paper sleeve
SIZE 2 — In paper sleeve
SIZE 3 — Preattached on small boot
SIZE 4 — Preattached on medium boot
Ankle
Longer strap
Sensor
Shorter strap

## Insert Sensor Into Boot

Press down to secure the sensor. The sensor should sit flush in the boot.

Insert the sensor at an angle, toe end first.
## Apply Boot to Either Foot

## Check the Strap Length

Too long (Velcro not on fabric)

Perfect!

Too short

## Boot Sizing (Using Small Boot As Example)

Bottom Sensor

Top Sensor

Sensor Zone

✅ OK

OK for toes to overhang – boot **DOES NOT** fit like a typical shoe.
### IMPORTANT NOTE
Make sure all sensors are making good contact with the baby's skin to ensure correct measurement.

## Strap Tightness

The ankle strap should be snug but not tight.

The sensor strap should sit flush against the top of the foot, with no gap.

---
## Boot and sensor maintenance

### Remove Sensor

To remove the sensor, push it from the opening at the bottom of the boot.
### Cleaning Sensor and Boot

Remove the sensor and place just the boot (and the straps if desired) in the washing machine.

Do not put the sensor in the washing machine

Dampen a cloth with water to wipe the components of the Stork System (sensor is shown in the example). Bleach wipes or 70% isopropyl alcohol can also be used.

Do not use household cleaning agents.
---

## Set up the hub

Place the hub on top of a nightstand, side table or a cabinet in the same room as the baby's crib to ensure a strong connection.

**OWNER'S MANUAL**
Refer to the online manual for other functions, information, and operation details.
masimostork.com/vitals-user-manual

---

## Attach USB Cable to Hub

Note: The top of the Hub has a button here used to silence alerts.

5W

Plug the hub power cable into the back of the hub.

Plug the other end of the hub power cable into the 5W power adapter.

Plug the hub into a wall socket.

## Pair the hub to the app

Use the same app you downloaded for pairing the sensor.
